STATE CLEARINGHOUSE

---

# NEWSLETTER

**June 16 through 30, 2003**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **June 16 through 30, 2003**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Phillip Crimmins (for projects in Northern California)  
Scott Morgan (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

DATE: MAY 15, 2003  
TO: ALL CEQA LEAD AGENCIES  
FROM: TERRY ROBERTS, STATE CLEARINGHOUSE  
RE: ACKNOWLEDGEMENT LETTERS FOR CEQA DOCUMENT SUBMITTALS

Due to recent budget cuts we are no longer able to provide written acknowledgement of the receipt of your Environmental Impact Report or Negative Declaration for state review. We will discontinue this service effective June 1, 2003. You may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation, or access that information by visiting our CEQAnet database at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov). We apologize for any inconvenience this may cause you.

The State Clearinghouse will continue to provide a closing letter with any state comments on the date following the close of the review period.

## ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE 1999 through 2002

	NOP	EIR	ND/MND	NOD	NOE	EA	EIS	OTHER	DOCUMENT TOTAL	Total Projects
1999	602	481	2007	1808	2699	41	22	177	7,837	6,715
2000	613	475	2243	2580	3840	78	16	386	10,231	8,562
2001	703	524	2612	2851	6083	75	13	422	13,283	11,279
2002	648 (5%)	546 (4%)	2675 (20%)	3115 (24%)	5738 (43%)	66 (0.5%)	14 (0.1%)	409 (3%)	13,211 (100%)	---

### KEY:

NOP	Notice of Preparation
EIR	Draft Environmental Impact Report
ND/MND	Negative Declaration/Mitigated Negative Declaration
NOD	Notice of Determination
NOE	Notice of Exemption
EA	Environmental Assessment (federal)
EIS	Environmental Impact Statement (federal)
OTHER	Other types including Final EIRs, Early Consultation, etc.

### NOTES:

Percentages in parenthesis indicate the percentage of total documents for calendar year 2002.

There are more Total Documents than Total Projects because there are often multiple environmental documents filed for any individual project.

# CEQA & Planning Case Law

## **Summary of Recent CEQA & Planning Case Law**

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

**No Cases have been selected for the period of June 16-30, 2003.**

*Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.*

# CEQA Documents

## Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, June 16, 2003</u></b>			
2003064005	Torres Martinez Travel Center Bureau of Indian Affairs, Sacramento Area --Imperial Lease approval of a 20-acre site for development of a travel center/ convenience store. Lease is of tribal trust land to a tribally owned corporation.	<b>EA</b>	07/17/2003
2002072115	Gray's Crossing - Specific Plan and Tentative Map Truckee, City of Truckee--Nevada A mixed use development on 757 acres consisting of a private golf resort/clubhouse; 600 residential units, a mixed-use commercial village complex, and an 8 acre church site to be developed in the future.	<b>EIR</b>	07/30/2003
2002122034	Migratory Game Bird Hunting (Waterfowl, Coots, Moorhens) Fish & Game Commission -- Hunting Migratory Game Bird (Waterfowl, Coot, Moorhen), in California.	<b>EIR</b>	07/30/2003
2003021113	2003 CSU Fullerton Facilities Master Plan California State University, Fullerton Fullerton--Orange The project is the adoption and implementation of the 2003 Facilities Master Plan prepared by the California State University, Fullerton. The Master Plan provides a framework for implementation of the University goals and programs by identifying needed facilities and improvements over the next seven years, through the year 2010, to accommodate 25,000 full time equivalent (FTE) students on campus.	<b>EIR</b>	07/30/2003
2002032041	BART Warm Springs Extension San Francisco Bay Area Rapid Transit District Fremont--Alameda BART is proposing to construct an extension of the Fremont BART line. The proposed project is the BART extension from the existing Fremont BART station 5.4 miles south to a proposed Warm Springs Station, with an optional station at Irvington. The proposed project alignment would generally parallel portions of the UP railroad corridor (which contains the former Western Pacific (WP) and Southern Pacific (SP) railroad tracks) and Interstates 680 and 880 in southern Alameda County. The initial segment would begin on an embankment at the southern end of the existing elevated Fremont BART Station. The alignment would pass over Walnut Avenue on an aerial structure and descend into a cut-and-cover subway north of Stevenson Boulevard. The alignment would continue southward in the subway structure under Fremont Central Park and the eastern arm of Lake Elizabeth, and surface to grade between the former WP and SP alignments north of Paseo Padre Parkway. The alignment would pass over Paseo Padre Parkway on a bridge structure, and then continue southward at grade, passing under a grade-separated Washington Boulevard. From Washington Boulevard, the proposed project alignment would continue at grade along the former WP alignment south to a terminus at Warm Springs and South Grimmer Boulevards in the Warm Springs district.	<b>FIN</b>	

## CEQA Daily Log

Documents Received during the Period: 06/16/2003 - 06/30/2003

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, June 16, 2003</u></b>			
2003061076	Bee Canyon Project, Project No. 02-249 Los Angeles County Department of Regional Planning --Los Angeles The Bee Canyon project is the proposed development of 556 factory-built housing units will be certified by the State of California Department of Housing and Community Development. The project will also include one recreation lot, six park lots, one flood control lot and eleven open space lots, three of which will be located within the functional natural habitat. Development will occur on approximately 135 acres; the remainder of the site, approximately 76 acres, will be retained in a largely natural and undisturbed condition.	<b>NOP</b>	07/15/2003
2003061086	Merced Community Golf/Red Rock R.V. Park Merced County --Merced Develop an 18' Hole Golf Course and 171-space R.V. Park on one hundred and seventy seven acres of land.	<b>NOP</b>	07/15/2003
2003062085	Fitzgerald Marine Reserve Master Plan Environmental Impact Report San Mateo County Redwood City--San Mateo San Mateo County has prepared a new Master Plan for the James V. Fitzgerald Marine Reserve (the Reserve) on the north coast of San Mateo County. The Master plan guides the use of the Reserve for education and recreation, and the preservation of the the significant natural resources that provide the educational and recreational opportunities at the Reserve.	<b>NOP</b>	07/15/2003
2003062086	East San Carlos Specific Plan (2003) Initial Study San Carlos, City of San Carlos--San Mateo The 2003 Specific Plan's goal is to provide a mix of land uses in East San Carlos (Project Area) that strengthens and preserves existing residential neighborhood balances economic base and mixture of uses, expands shopping and employment opportunities and increases net fiscal benefits to the City. Implementation of the proposed project could result in the addition of approximately 1.7 million square feet of commercial and industrial land uses, 140 hotel rooms and 160 dwelling units over a period of ten to twenty years to the eastern portion of San Carlos. In addition, the proposed project would add new policies and guidelines that would incorporate traffic mitigation measures, improve visual quality, increase, and improve pedestrian movement through the Project Area, as well as between east and west San Carlos.	<b>NOP</b>	07/15/2003
2003062089	Yolo-16 Safety Project Caltrans --Yolo The project site is located along State Route (SR) 16 between Brooks and Interstate 505 in Yolo County, a distance of approximately 21 miles. This section of SR 16 has seen a significant increase in traffic volumes and accidents in recent years. The project is designed to reduce the rate and severity of accidents on SR 16 by bringing the facility up to current highway design standards.	<b>NOP</b>	07/15/2003

2002111101	Construction of Vista Del Verde-Bastanchury Road Water Pipelines - Job No. 0231 Yorba Linda Water District Yorba Linda--Orange Construction of approximately 3150 feet of 18" Zone 3 Transmission Main and construction of approximately 4350 feet of 36 inches Zone 4 Transmission Main within Bastanchury Road for the Vista Del Verde Village III residential development. Includes valves and underground piping and related equipment.	<b>NOD</b>	
2002112039	Central Petaluma Specific Plan Petaluma, City of --Sonoma Specific Plan for a 400 acre area in central Petaluma. The Plan provides policies and regulations governing land use, transportation, historic resources, public space and utilities.	<b>NOD</b>	
2003041078	Elementary School Site E-4 Fresno Unified School District Fresno--Fresno The project involves acquiring a 10.57- acre site for a new elementary school and developing and operating an 850-student elementary school on the site. The elementary school would have classrooms, some of which might be in a two-story building; a multipurpose room; an administration building; hardcourt areas; and playfields.	<b>NOD</b>	
2003041177	County Department of Public Works, Santa Rosa Creek Road at Curti Creek Replacement Project (C010013E/P12B501) San Luis Obispo County Cambria--San Luis Obispo Approximately 40 yards from its confluence with Santa Rosa Creek, Curti Creek passes under Santa Rosa Creek Road through two roughly parallel 96-inch corrugated metal pipe (CMP) culverts. The culverts appear to be aligned at an angle to the flow of water within the Curti Creek channel. The outflow area below the culverts has seggraded, resulting in a drop of approximately 10 feet from the bottom of the culverts to the streambed.	<b>NOD</b>	
2003052006	The Lodge at Tahoe Donner Truckee, City of Truckee--Nevada Demolition of an existing 4,129 square foot golf course clubhouse and construction of a new 9,255 sq. ft. golf course clubhouse within the Tahoe Donner Planned Community.	<b>NOD</b>

2003068235	Issuance of Streambed Alteration Agreement #03-0044, Savage Creek Fish & Game #1 Trinidad--Humboldt SAA #03-0044 Savage Creek, tributary to the Pacific Ocean, Humboldt County.	<b>NOE</b>	

## CEQA Daily Log

Documents Received during the Period: 06/16/2003 - 06/30/2003

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, June 16, 2003</u></b>			
2003068237	Issuance of Streambed Alteration Agreement #03-0168, Kidder Creek Fish & Game #1 Fort Jones--Siskiyou SAA #03-0168 Kidder Creek, tributary to the Scott River, Siskiyou County.	<b>NOE</b>	
2003068238	Scott/Shasta Stream Gage Installation Project Water Resources, Department of --Siskiyou The proposed project involved installation of eight new stream gaging stations and maintenance of one existing gage.	<b>NOE</b>	
2003068239	North Channel Flood Control Channel Maintenance Fish & Game #3 --San Mateo Removal of approximately 2,500 cubic yards of accumulated sediment and revegetation from 700 linear feet of North Channel between San Bruno Avenue and Highway 101 and from 1,300 linear feet of North Channel between South Airport Boulevard and the title gates. Issuance of a Streambed Alteration Agreement Number 1600-2003-0349-3 pursuant to Fish and Game Code Section 1601.	<b>NOE</b>	
2003068240	Carneros Creek Levee Reinforcement Fish & Game #3 Napa--Napa The project is the repair of an existing levee, and reinforcement of the levee an additional 50 feet upstream with toe rock. The toe rock will be reinforced with approximately 50 cubic yards of compacted earthen fill. The project site is located on the bank of Carneros Creek at 1000 Milton Road at the Chardonnay Vineyard, LTD. The bank will be further stabilized with a combination of trees, shrubs, and grasses. A total area of 1,500 feet will be revegetated with 4-foot by 4-foot density, or about 90 plus plants. Natural cloth weave will be used to stabilize the bank as the plants establish themselves. The plants will be irrigated with a drip system tied into the adjacent vineyard irrigation network. The plant health will be monitored by the vineyard management crew. A backhoe parked on the levee will place the rock and compact the fill on top. No equipment will enter the water. Material will be delivered directly into the vineyard avenues. Issuance of a Streambed Alteration Agreement Number 1600-2003-0247-3 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>	
2003068241	Napa River Bank Stabilization Fish & Game #3 Calistoga--Napa The Operator proposes to stabilize a 30-inch oak tree located on top of the river bank behind a residence. The oak has roots that have been exposed by high river flows and the tree is being undermined. Rock and soil will be wedged under the tree to reinforce the bank and tree to try to give the tree additional soil in which to root. Wooden posts may be driven next to the tree to stabilize the rock on the slope and create a footing. All work will be done by hand and access will be through the backyard. This section of bank has been eroding due to lack of vegetation. Willow cuttings will be installed from the back of the concrete structure to the southern property line. Issuance of a Streambed Alteration Agreement Number 1600-2003-0024-3 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>

2003068308	Truckee Outlet Right of Entry Permit Parks and Recreation, Department of --Placer Issue a Right of Entry permit to Tahoe City Public Utilities District (TCPUD) allowing temporary access to areas adjacent to the Truckee River, within the boundaries of the Tahoe State Recreation Area. The permit will allow access throughout the property to the Tahoe City "Fanny" Bridge and construction work along the Truckee River and adjacent to the Tahoe City Dam. Construction activities will include trenching and installation of waterline, site grading, placement of piling for trail crossing, and other development associated with the Lakeside Trail Development Project (as specified in the Environmental Impact Report [EIR], Subsequent EIR, and Supplement EIR for the Lakeside Trail Phase II - Outlet Crossing [SCH# 2001112031], prepared by TCPUD). TCPUD will be responsible for CEQA/NEPA compliance related to the actual work performed within the easement boundaries.	<b>NOE</b>	
2003068309	Auburn Overlook Sprinkler Repair Parks and Recreation, Department of --Placer This project will repair the existing sprinkler system at the Auburn Dam Overlook Staging Area. The water supply system is in working condition; however, components of the electrical system for the timers need replacement. There are three independent sprinkler control areas, each requiring a separate electrical line. A trench will be dug from the electric timer boxes to the sprinkler control boxes to uncover and replace damaged electrical wire. The length of the trenching will be 75 feet and the depth of the trenching will be 24 inches. The trench will be backfilled with the soil removed. The only vegetation removal and ground disturbance will be along the 75-foot trench line. This area has been previously disturbed and consists of Himalayan Blackberry and annual grasses. A PRC 5024 review has been completed and there are no cultural resource concerns with the project.	<b>NOE</b>	
2003068310	Mammoth Bar Photo Monitoring Stations Parks and Recreation, Department of --Placer This project will establish photographic monitoring stations at Mammoth Bar off Highway Vehicle Area within Auburn SRA. Photo monitoring is required as part of the Wildlife Habitat Protection Plan developed for the OHV area. Up to 35 stations will be established at staging areas, representative trail sites and in other areas where restoration, erosion control or other needs dictate. The photo monitoring stations will consist of 3" diameter stamped benchmarks driven 18" into the ground at each station. The benchmarks will be flush with the ground so they do not create a hazard on trails or other use areas. No vegetation will be disturbed through the placement of the benchmarks or during monitoring. Monitoring will occur in the early spring or early fall.	<b>NOE</b>	
2003068311	Install Concrete Slab Parks and Recreation, Department of --Nevada Install a concrete slab in the Nursery Yard at Empire Mine State Historic Park to provide a plant propagation area. Work will place a 12' long x 10' wide x 4" thick concrete slab on a flat, open, gravel fill area; the rear wall and rear 6' of each side	<b>NOE</b>

<b><u>Documents Received on Monday, June 16, 2003</u></b>			
	wall will be composed of concrete block 3' high, the front 6' of the side walls will be composed of 8" high concrete block. Concrete blocks will be grouted full. This project supports district services.		
2003068312	Native Plant Garden Parks and Recreation, Department of --Nevada Install a demonstration garden and irrigation syatem at South Yuba State Park to educate the public about native plants in the area. Work will include planting approximatey 25 drought-tolerant native plants from local seed sources and the installation of an above-ground drip irrigation system from an existing water source. This project will enhance visitor services.	<b>NOE</b>	
2003068313	Repair/Replace Fences Parks and Recreation, Department of --Sonoma Replace wooden fences within the Beauty Ranch at Jack London State Historic Park. Fences will be replaced in and around with Winery Ruins and around the landmark oak tree.	<b>NOE</b>	
2003068314	Horse Concession Fence Posts Parks and Recreation, Department of --Napa Install three wooden fence posts near the gate of existing fence line at Bothe Napa Valley State Park, and several T-posts, and one wooden post on the eastern end of existing fence. Four nearby hitching rails will also be installed.	<b>NOE</b>	
2003068315	Replace Flag Pole and Informational Sign Parks and Recreation, Department of --Mono Replace combination flagpole and informational sign at park entrance at Bodie State Historic Park. Work will include removal of current flagpole, sign, and posts; and installation of replacement support posts in new postholes 12" wide x 2"-3" in depth. The current sign will be reused and positioned at the same height; new flagpole will approximate a lean exhibited by the current structure. In the event that previously undocumented cultural resources are encountered during project construction (including, but no limited to dark soil containing shellfish, bone flaked stone, groundstone, or deposits of historic trash), work within the immediate vicinity of the find will stop until a DPR-qualified cultural specialist has evaluated the find and implemented appropriate disposition of artifact(s). This project supports visitor services.	<b>NOE</b>	
2003068316	Evaluate Sandstone Structures and Develop Conservation Plan Parks and Recreation, Department of --Monterey Evaluate three historic sandstone structures (Point Sur Lighthouse, Assistant Keeper's Quarters, and Head Keeper's Quarters) resources at Point Sur State Historic Park and develop conservation plan to protect historic structures. Work will include core samples in areas that will not impact the structure; at two locations, stone has been removed from the structure, which could be utilized in the testing. Scrape selected masonry joints to collect samples to determine composition and repair test areas. Apply sandstone patches to failed areas. Conduct compressive strength tests for the bedding mortar at various locations. Test consolidation and water-repellent products on three to four locations of areas no greater than 10' x 10' each.	<b>NOE</b>

2003068317	Pig Palace Visitor Access Expansion Parks and Recreation, Department of --Sonoma Reposition fence and gate to allow unguided visitor access into historic stone piggery at Jack London State Historic Park to improve visitor services. Reattach original iron pen doors and feed gates to stalls. Rest plywood over outer pen doorways to guide visitor flow. Prune overhanging tree limbs.	NOE	
2003068318	Campstore Improvements Parks and Recreation, Department of --Lake Install awning, deck and ramp on privately owned modular camp store building at Clearlake State Park to improve facility and access.	NOE	
2003068319	Beach and Creamery Meadow Trail Reroute Parks and Recreation, Department of --Monterey Reroute 150-feet of Creamery Meadow Trail and 250-350 feet of Beach Trail at Andrew Molera State Park to provide a safe public access to the Andrew Molera State Beach. Reroute terrain is flat with no known grades or excessive slopes. Abandoned trail will be re-vegetated with willow plantings by DPR Resources Staff. This project protects public safety and supports continued use and maintenance.	NOE	
2003068320	Blacksmith Shop (02/03-A-36) Parks and Recreation, Department of --Los Angeles Project consists of the extension of an existing chimney for a blacksmith forge in a historic structure out through non-historic roof materials, and the installation of visibly unobtrusive window and door security features. These changes would allow the forge to be used for blacksmith demonstrations and increase the ability to view blacksmith activities and artifacts.	NOE	
2003068321	Development of Water Quality Contaminant Instrumentation Metropolitan Water District of Southern California --Los Angeles The Metropolitan Water District of Southern California (Metropolitan) proposes to develop water quality contaminant instrumentation to be used at its facilities. A 2001 security threat assessment conducted for Metropolitan facilities determined that Metropolitan should be able to promptly and safely respond to potential biological and chemical contamination events in Metropolitan's system. Such events could pose a hazard to first responders or sample collectors who would arrive at the contamination site. Metropolitan proposes to address the potential safety hazard by developing automated sampling devices, field microbiological and radiological test kits, hydraulic distribution system models, and new analytical methodologies in order to enhance Meropolitan's ability to respond to potential biological or contamination threats.	NOE	
2003068322	Repair of the Access Road to the Telecommunications Equipment at Diamond Valley Lake Metropolitan Water District of Southern California --Riverside The Metropolitan Water District of Southern California (Metropolitan) proposes to repair the access road leading to telecommunications equipment located on the hills on the north side of Diamond Valley Lake. Metropolitan proposes to grade	NOE

	the access road to repair erosion damage. The grading will allow vehicles to access the telecommunications equipment located on the hills north of Diamond Valley Lake in order to perform routine maintenance to the equipment. This type of grading work will be required approximately every three months to maintain this roadway.		
2003068323	Jensen Chlorine Contaminant Project Metropolitan Water District of Southern California --Los Angeles The Metropolitan Water District of Southern California proposes to modify the chlorine facility at the Jensen Filtration Plant to include containment and neutralization capabilities, in order to comply with current Uniform Fire Code. The current Metropolitan action is to prepare preliminary design, as associated with feasibility and planning studies and prepare environmental documentation, as well as basic data collection and resource evaluation activities.	NOE	
2003068324	Tice Creek Culvert under Golden Rain Road Fish & Game #3 Walnut Creek--Contra Costa In order to restore the capacity in the box culverts, the operator proposes to remove sediment and debris from Tice Creek, beneath Golden Rain Drive in Rossmore. Approximately 1 to 2 feet of sediment will be removed from the trash rack on the south side of the street, proceeding through the concrete box culverts, to approximately 25 feet downstream from the culverts. Access to the creek will be via a cut road on the west bank, north of Golden Rain Drive. Issuance of a Streambed Alteration Agreement Number 1600-2003-0147-3 pursuant to Fish and Game Code Section 1603.	NOE	
2003068325	Gruenig Bank Stabilization Fish & Game #3 Pinole--Contra Costa As part of the continued repair (riprap work started in 2002 without permits) of an eroding bank, the operator proposes to place riprap, over existing riprap. Approximately 60 square feet of additional riprap will be placed on the bank at a 70% slope. Soil will be placed over the riprap and native grasses, 20 blackberry, 6 willows and 3 buckeyes will be planted. The Operator may place an erosion control blanket on the slope to help stabilize the added soil. Issuance of a Streambed Alteration Agreement Number 1600-2003-0073-3 pursuant to Fish and Game Code Section 1603.	NOE	
2003068327	Salinas River Tributary Culverts Fish & Game #3 --San Luis Obispo The project is the installation of two, 30-inch diameter, 30-foot long corrugated metal pipe culverts placed in the channel of a tributary to the Salinas River. Issuance of a Streambed Alteration Agreement Number 1600-2003-0338-3 pursuant to Fish and Game Code Section 1603.	NOE	
2003068328	Napa River Tributary Flat Car Bridge Fish & Game #3 Napa--Napa Installation of a flat car bridge over a tributary to the Napa River. The bridge will replace an existing ford crossing. The eastern foundation of the bridge lies outside the top of the bank. Approximately 20 cubic yards of material will be excavated to construct the footings, and the approximate area of disturbance on the western	NOE

2003062097	<p>Construction and Operation of Building 49 Office Building and G-4 Parking Lot University of California Berkeley--Alameda</p> <p>The University of California proposes to enter into an agreement with a third party developer to construct a six-story, 65,000 sq ft office building (Building 49) at Lawrence Berkeley National Laboratory (LBNL) or Berkeley Lab). LBNL would use the building for office and meeting space, and would "decompress" existing staff from other areas of Berkeley Lab that are currently overcrowded or that do not meet LBNL workspace standards for office workers. A parking lot (Parking Lot G-4) would be constructed on a largely undeveloped slope approximately 700 feet southeast of the Building 49 site. The G-4 parking lot would serve the approximately 1,235 occupants of the Building 50 and Building 70 complexes. This area of LBNL is historically underserved for parking.</p>	<b>NOP</b>	07/16/2003
2003062100	<p>Highway 101 Widening and Improvements Project-Old Redwood Highway to Rohnert Park Expressway Caltrans #4 Petaluma, Cotati, Rohnert Park--Sonoma</p> <p>The project extends along Highway 101 in Sonoma County between Old Redwood Highway in Petaluma and the Rohnert Park Expressway in Rohnert Park, a distance of 10.3 km (6.4mi). The following improvements are proposed within the project limits. Widening in the median to provide high occupancy vehicle (HOV) lanes in each direction; widening along the outside to provide auxiliary lanes as required to facilitate weaving traffic movements between the State Route (SR) 116-Gravenstein Highway and Rohnert Park /Expressway interchanges; shifting the alignment of a portion of Redwood Drive if analysis determines auxiliary lanes are needed; reconfiguration of the northbound SR 116 to Highway 101 entrance ramp to improve safety; modified ramp geometry at the Old Redwood Highway interchange; modified freeway on-ramps to accommodate future ramp metering and HOV preferential lanes; northbound climbing lane over the Cotati Grade to improve safety, improve operations and facilitate truck movements; modifications or Railroad Avenue to provide a full or partial interchange (optional component); and modifications of structures and use of retaining walls as necessary to accommodate highway improvements.</p>	<b>NOP</b>	07/16/2003
2003062101	<p>Highway 101 Widening and improvements Project - Steele Lane to Windsor River Road Caltrans #4 Windsor, Santa Rosa--Sonoma</p> <p>The project extends along Highway 101 in Sonoma County between Steele Lane in Santa Rosa to Windsor River Road in Windsor, a distance of 12.3 km (7.6 mi). The following improvements are proposed within the project limits: Widening in the median to provide high occupancy vehicle (HOV) lanes in each direction; widening along the outside to provide auxiliary lanes as required to facilitate weaving traffic movements between interchanges; shifting the alignment of a portion of Cleveland Avenue, Coffey Lane, and Lavell Road if analysis determines auxiliary lanes are needed; relocating a portion of Conde Lane to accommodate southbound on-ramp modifications; modifications to the Fulton Road and Airport Boulevard interchanges to improve traffic flow; modified freeway on-ramps to accommodate future ramp metering and HOV preferential lanes; and modifications of structures to accommodate highway improvements.</p>	<b>NOP</b>	07/16/2003

2002072027	Regency Centers Property Gilroy, City of Gilroy--Santa Clara SAA # R3-1600-2003-0458-3 The proposed project would install a 54-inch diameter CSP culvert along the left bank (looking downstream) of the Princeville Drainage. Approximately 60-cubic yards of rock slope protection would be placed around the outfall to dissipate the energy of water existing the outfall.	<b>NOD</b>	
2002121096	Canoga Park New Elementary School #1 Los Angeles Unified School District --Los Angeles New Economics for Women (NEW) has acquired approximately 2.174 acres of property to accommodate the construction of a proposed turnkey elementary charter school to serve students in kindergarten through fifth grade. An "L"-shaped two-story classroom building is proposed constructed and is expected to include approximately 45,229 square feet of new building area and 39,850 square feet of playground area. The project consists of a library administrative building, and underground parking structure with 54 parking spaces, multipurpose room, kitchen, lunch shelter, playground, and basketball courts. This new elementary school will relieve Canoga Park Elementary School.	<b>NOD</b>	
2002121138	Concurrence in the Issuance of a Revised Solid Waste Facility Permit (SWFP No. 13-AA-0022) for the Monofill Facility, Desert Valley Company, Brawley, Imperial Imperial County Planning Department Brawley--Imperial Revised Solid Waste Facility Permit to allow for an increase in permitted tonnage from 500 tons per day to 750 tons per day, an increase in permitted traffic volume from 25 vehicles per day to 38 vehicles per day, an increase in permitted area from 160 acres to 181.5 acres, an increase in disposal area from 18.7 acres to 28.9 acres, an acceptance of additional non-hazardous waste streams as listed in the permit.	<b>NOD</b>	
2002122119	Howe Avenue Transmission Main (CIP# Z156) Sacramento, City of --Sacramento The project consists of the development of approximately 1.2 miles of a 54-inch diameter water transmission main which would serve to connect the transmission systems of the E.A. Fairbairn Water Treatment Plan and the Sacramento Rover water Treatment Plan, which would enable the City to serve the rapidly growing areas north of the American River, reduce groundwater overdraft and increase the reliability of the water transmission system.	<b>NOD</b>	
2003032043	Tower Road Youth Services Center San Mateo County San Mateo--San Mateo Replacement of the current Hillcrest Juvenile Hall and associated facilities on Tower Road with a new Youth Services Center. The new center will consist of a 240 bed Juvenile Hall, Probation Offices, Health Services, Juvenile Courts Education Center, Girls Camp, Group Receiving Homes, and Dual Diagnosis facility. The new facility is needed because the existing Hall is overcrowded, undersized, and outdated. Because of haphazard expansion and antiquated design, the current facility requires extensive staff effort to maintain a level of security needed for the types of minors housed today.	<b>NOD</b>

2003061094	Annexation No. 27 to the Mojave Public Utility District Mojave, City of --Kern The project is an annexation of one parcel of approximately 89.5 acres. The parcel will receive water service and sewer service from the MPUD facilities.	<b>Neg</b>	07/17/2003
2003061095	Jess Martin Park Community Recreation Center San Diego County Department of Public Works --San Diego The proposed project is the construction of a 3,600 square foot community recreation center within the existing Jess Martin County Park in the unincorporated community of Julian. A septic system with leach fields and reserve, underground electrical and water service for the community recreation center, and a parking lot will also be constructed as part of the project. The community recreation center will be located in a disturbed area in the southeastern portion of the park adjacent to an existing internal access road that surrounds the park. The parking lot will provide 55 parking spaces with two disabled van accessible parking spaces for the community recreation center. The septic system proposed is the Orenco Advan Tex AX Treatment System. This system includes a processing tank that treats wastewater to secondary standards. Potable water for the community recreation center will be obtained an existing on site well per an agreement with the Julian Community Services District.	<b>Neg</b>	07/17/2003

	receive funding of over \$3,000.		
2003068369	Lanan Debris Basin Fish & Game #5 Sierra Madre--Los Angeles The Operator proposes to alter the streambed by removing the existing substandard outlet tower and abandoning approximately 700 feet of 24-inch outlet drain. The existing outlet tower has an inadequate foundation and an undersized outlet pipe. The invert of the outlet pipe is severely deteriorated and blocks up during the rainy season. The tower will be replaced with a new outlet tower. A new 42-inch outlet drain will be constructed adjacent to the spillway, or towards the entrance road. The outlet will be connected to the existing drain downstream of the debris basin.	<b>NOE</b>	
2003068370	Little Dalton Debris Basin Fish & Game #5 Glendora--Los Angeles The Operator proposes to alter the streambed by seismically retrofitting the Dam to meet current Division of Dam Safety requirements. These activities include constructing buttresses against the inside surface of the spillway walls, and constructing external buttresses for the outlet tower. The project also includes construction of a span across the spillway for employee access. The access bridge to the outlet tower will be removed. LACPW and its contractor will implement standard best management practices during the retrofit activities. The contractor will have onsite spill kits, use water to control dust, and all equipment, including drill rigs will be well-maintained and not leaking fluids. The project will temporarily impact the area, but no permanent impacts will occur.	<b>NOE</b>	
2003068372	Water Line Installation for Horse Concession Parks and Recreation, Department of --Napa Install 150 feet of water line for use by the horse concession in Bothe-Napa Valley State Park. The line will run between an existing kiosk and the horse corral and will be buried 12-18 inches below ground surface. Project will support continued use and maintenance of Park facilities.	<b>NOE</b>	
2003068373	Repave/patch Asphalt Road on Driving Surface of Lake Ilsanjo Dam, Annadel State Park Parks and Recreation, Department of --Sonoma Repave and/or patch asphalt road on driving surface of Lake Ilsanjo Dam, Annadel State Park. Existing paving is very degraded, cracked and deeply rutted. The paving is essential maintenance of the dam driving surface to prevent water seeping into the earthen dam structure.	<b>NOE</b>	
2003068374	Roof Structure Over Historic Wagon (02/03-IE-17) Parks and Recreation, Department of --Riverside Project consists of constructing a roof structure to protect a 1910 era logging wagon from weathering. This project includes six concrete filled holes (12" x 12" x 12") and six wooden posts.	<b>NOE</b>

<b><u>Documents Received on Thursday, June 19, 2003</u></b>			
2003068381	Service Yard Improvements and Trailer Pad Installation Parks and Recreation, Department of --Marin Improve existing service yard and install two 65' x 18' trailer pads in the residence and service yard at China Camp State Park. Remove existing chainlink fencing; install 6'-8' redwood fencing with locking gates to secure service and residence area for employee safety and protection of equipment. Pave existing compacted base rock parking and service yard to reduce dust. Construct two single-wide trailer pads, driveways, and small yards; one on the existing paved area and one in a former firewood storage area. Pad and driveway for second pad will be of compacted gravel. Connect pads to existing utility services. Convert existing trailer office to one bedroom residence (interior renovation only; all utility connections already in place). Realignment of existing trailheads to accommodate new trailer pads and security fencing.	<b>NOE</b>	
2003068382	Overflow Parking Gate Installation Parks and Recreation, Department of --Placer Install gate at entrance to Main Beach overflow parking lot located in Granite Bay at Folsom Lake State Recreation Area to prevent unauthorized vehicle access when lot is not in operation. Currently, off-road motorists use parking lot as an access point to undeveloped areas of park, resulting in potential fire hazards and destruction of natural resources. Project protects public safety and park resources.	<b>NOE</b>	
2003068383	Emergency Artifact Protection, Immigration Station Hospital Building Parks and Recreation, Department of --Marin Stabilize areas of plaster walls that have historic pencil drawings in Hospital Building at Angel Island State Park to protect cultural resources. Encapsulate and remove plaster sections with drawings to store in protected location and prevent mold and other adverse environmental factors in the building from damaging drawings. Project protects cultural resources.	<b>NOE</b>	
2003068384	Replace Interpretive Signs on Indian Nature Trail Parks and Recreation, Department of --Marin Replace 13 interpretive posts and signs with new posts and signs on Indian Nature Trail between Hearts Desire Beach and Indian Beach at Tomales Bay State Park to improve visitor services. Holes excavated for posts anchored in cement would measure approximately 18 inch x 24 inch with a depth of 24 inches.	<b>NOE</b>	
2003068385	Gregory Shoreline Stabilization Project R2-2002-511 Fish & Game #2 --Placer Install 110 foot sheetpile wall, with fill behind wall, and rock protection lakeward of wall to reclaim and protect ended shoreline bank.	<b>NOE</b>	
2003068386	Off Highway Vehicle (OHV)Track Maintenance Fish & Game #1 --Alpine Routine maintenance and grooming of Off Highway Vehicle area tracks, jumps, turns, fencing, landscaping.	<b>NOE</b>

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Thursday, June 19, 2003</u></b>			
2003068387	Shay Creek Culvert Replacement Fish & Game #2 --Alpine Culvert replacement and road widening.	NOE	
2003068388	Cole Creek Diversion Flow Facility Modification Fish & Game #2 --Amador Outlet pipe replacement, valve installation, trash rack replacement, trash rake installation, concrete debris wall construction upstream of valves and trash rack.	NOE	
2003068389	Kearn Shoeline Stabilization Project R2-2002-487 Fish & Game #2 --Placer Install 75 foot sheetpile wall, with fill behind wall, and rock protection lakeward of wall to relaim and protect eroded shoreline bank.	NOE	
2003068390	Sloop Shoreline Stabilization Project R2.2002-458 Fish & Game #2 --Placer Install 120 feet sheetpile wall, with fill behind wall, and rock protection lockward of wall to reclaim and protect eroded shoreline bank.	NOE	
2003068391	Canyon Foot Bridge Replacement Fish & Game #3 --Sonoma Temporarily repair, then later replace a footpath bridge over the creek in Poma Canyon, tributary to Willow Creek. SAA # 1600-2003-0277-3	NOE	
2003068392	Sulphur Creek Utility and Access Bridges Fish & Game #3 Ukiah--Mendocino The utility bridge consists of a 58-foot long steel "I" beam supported by two, 24-inch diameter concrete piers, one near either edge of Sulphur Creek. At the ends of the bridge are concrete encasements with a slot at the top to support the utility lines from vandalism, a steel plate will be secured to the top of the encasement over the utility lines.	NOE	
2003068393	Ten Mile River Bridge Replacement Project Fish & Game #3 Fort Bragg--Mendocino The project will replace three culverts that are barriers to fish migration with clear span steel bridges that will not obstruct fish passage or flow. Site 1 is on Gulch 3, a Class 1 tributary to the Main Stem Ten Mile River. Site is located approximately 7 miles upstream from the Pacific Ocean.	NOE	
2003068394	Coyote Creek Maintenance Project Fish & Game #3 --Marin Perform maintenance dredging of Coyote Creek, tributary to Richardson Bay, to maintain the flow capacity of an existing flood control channel in the Marin City and Tamalpia Valley area of Marin County. Dredging will occur between Highway 1 and Ross Drive. There will be no change in the size, length, width, depth, or configuration of Coyote Creek as it was established by the original flood control project, constructed in 1967. In addition to the dredging, the levee on the north bank will be repaired to stop leaks in the structural walls.	NOE

2003068395	R4-2002-0127; Execution of Agreement to Extend and Amend Lake or Streambed Alteration Agreement No. 4-026-93 Fish & Game #4 --Kern 1. Removal of living and dead vegetation, sediment, and debris, from inside and upon the structures, and immediately upon or adjacent to inflow/discharge aprons, basins, wing walls, and dissipaters of existing bridges, culverts, diversions, and flow control structures. 2. Removal of living and dead vegetation, sediment, and debris from the channel bottom and the bottom half of the banks of miscellaneous streams which are an obstruction to flow, from an area 40 feet (upstream and downstream) of bridges, pipeline, and road crossings, culverts, diversions, or flow control structures. The subject materials must be in clear danger of falling into the channel, or material, which noticeably reduces channel capacity, and would result in accelerated erosion and/or cause damage to human-made structures or features. 3. Removal of living and dead vegetation, sediment, and debris from the beds and banks of groundwater recharge ponds. 4. Repair of existing structures, other flow and erosion control features, groundwater recharge berms and ponds and pipeline and road crossings in their original location and configuration. 5. Maintenance of existing access routes to their original location and configuration.	<b>NOE</b>	
2003068396	SB 50 Alternative Fees Roseville City School District Roseville--Placer Development impact fees to mitigate the impact of new development.	<b>NOE</b>	
2003068397	Bell Canyon Stream Restoration Project Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland --Napa The Regional Water Quality Control Board (RWQCB), San Francisco Bay Region, has issued a Notice of Violation on January 24, 2003, for sediment discharges after illegal grading, vegetation clearing and leveling of an intermittent creek. The NOV called for corrective restorative measures to the creek and surrounding area.	<b>NOE</b>	
2003068398	Rosa Street Vicinity Pedestrian/Bicycle Bridge Solana Beach, City of Solana Beach--San Diego Any and all phases of acquisition of leases, financing, and/or construction of the Rosa Street Bridge to further enhance safe pedestrian and bicycle linkage across the existing double railroad tracks.	<b>NOE</b>	
2003068399	Culvert/Fill Removal/Bridge Crossing/Riparian Restoration Fish & Game #5 Malibu--Los Angeles Construct 12' bridge over an unnamed drainage and remove old culvert pipe and fill that has existed for 40 years within two unnamed drainages. Restore riparian habitat within the two drainages.	<b>NOE</b>

	circulation.		
2003041146	Hornburg Jaguar Expansion Project Santa Monica, City of Santa Monica--Los Angeles The project site is located at 3300 Olympic Boulevard, in the City of Santa Monica. Project implementation involves the demolition of 15,700 square feet of car storage and service writer office space and the development of 54,047 square feet (sf) of new structures to house the following uses above a subterranean garage: auto sales showroom and offices, new car storage, and 148 parking spaces (some of which would be tandem). An existing project structure (auto service) would be internally reconfigured to provide 11 additional service bays (for a total of 48). Specifically, in the western half of the project site, one two-story building would include about 9,618 s.f. of auto showroom and sales offices, 10,021 s.f. of rooftop car storage, 19,425 s.f. of covered car storage, and 14,983 s.f. of semi-subterranean parking.	<b>EIR</b>	08/04/2003
2003061111	Don Alejandro Valdez Community Plan Mendota, City of Mendota--Fresno The applicant proposes to develop a "Farmworker Community" by providing multi-family, and single family housing to low- and moderate-income families. The applicant further proposes to create a commercial center, daycare facility, a regional youth and adult sports center, an office complex, a government services center, and a farm labor transportation terminal. The proposed project includes the following: annexation of the 91 acre property into the City of Mendota, a General Plan Amendment, pre-zoning, Tentative Subdivision Map approval allowing the creation of ten separate lots, and an amendment of the City of Mendota Redevelopment Plan allowing the project site to be incorporated into the City's Redevelopment Proect Area.	<b>NOP</b>	07/21/2003
2003051090	B.A.P.S. Temple and Cultural Center - Development Code Amendment 03DCA01: 02GPA04; 02ZC03; TPM 15901; 02CUP09; 02SPR07 Chino Hills, City of Chino, Brea--San Bernardino This amendment notice is being recirculated to address the inclusion of an Amendment to the Special Use Standards, Section 16.42.020 of the Development Code to permit the height of towers, steeples, or other similar architectural features on churches and church facilities to exceed the height limits of the underlying zone, up to a maximum of 80 feet, subject to a conditional use permit and compliance with Section 16.42.020(B) of the code. The Amendment of the Special Use Standards section of the Development Code is necessary to clarify an inconsistency in the Code regarding permitted height of church appurtenances and to permit the application for the B.A.P.S. Temple and Cultural Center to proceed as proposed.	<b>Neg</b>	07/22/2003
2003061108	Breckenridge Road Water Well East Niles Community Services District Bakersfield--Kern The project involves the drilling of a groundwater well to the approximate depth of 1,000 feet with 16-inch diameter casing. The well will have an electric motor driven vertical turbine pump with a flow capacity of approximately 1,500 gallons per minute.	<b>Neg</b>	07/21/2003

<b><u>Documents Received on Friday, June 20, 2003</u></b>			
2002031118	SR-90 Imperial Highway Grade Separation at Orangethorpe Avenue-Esperanza Road/ BNSF Railroad Intersection Caltrans Anaheim--Orange The California Department of Transportation (Caltrans) proposes to separate State Route 90 (Imperial Highway) at the existing Burlington Northern Santa Fe (BNSF) Railway, and construct a new interchange at the intersection of State Route 90 and Orangethorpe Avenue / Esperanto Road.	<b>NOD</b>	
2003031098	AD 01-039; Log No. 01-02-010; Janssen Open Space Encroachment San Diego County Department of Planning and Land Use --San Diego The project is a request for an Administrative Permit for an open space encroachment that would allow for the construction of a driveway, in association with a proposed single-family residence, within an exiting open space easement. The biological open space easement was dedicated in 1981 as mitigation pursuant to TPM 16879; Log No. 80-8-23 and covers approximately 2.11 acres of the 6.54 acre parcel. The open space is for the protection of sensitive riparian habitats associated with Moosa Creek, which runs through the property. The proposed residence will be 1200 square feet and located immediately adjacent to the southern open space boundary. The driveway will serve the proposed residence from the existing main driveway, which is shared with the parcel to the west, under the same ownership. Access to the site will be from Old Castle Road. The proposed encroachment will impact a total of 0.23 acre of the open space easement as a result of grading for the driveway and fire clearing required for the residence. Proposed grading for project implementation will involve 1600 cubic yards of cut and fill. The proposed dwelling unit will utilize an on-site sewage disposal system and receive water service from the Valley Center Municipal Water District.	<b>NOD</b>	
2003052041	Dora Creek Curve Realignment Caltrans #3 --Mendocino Caltrans proposes a 101 meter radius curve realignment, with a concrete crib wall and addition of 165 meters of Metal Beam Guard Rail on U.S. Route 101 in Mendocino County between Piercy and Leggett.	<b>NOD</b>	
2003068403	Recyclable Hazardous Waste Regulations (R-99-15) Toxic Substances Control, Department of -- New Regulations include establishing criteria for determining hazardous waste recycling feasibility. The regulations add specific wastes to the "list of recyclable materials" that must be recycled to avoid a five fold increase in disposal fees. The regulations establish criteria for adding wastes to the list as their recycling technology becomes prominent and economically feasible. The regulations also delete materials that are no longer appropriate to remain on the list due to changes in regulations statute.	<b>NOE</b>	
2003068404	Safety-Kleen Systems, Incorporated, Class 2 Permit Modification for Truck Cleanout Operation Toxic Substances Control, Department of Sacramento--Sacramento The Class 2 Hazardous Waste Facility Permit modification allows the facility to add a roll-off dumpster and ramp which will be used for truck cleanout. 	dumpster and the truck cleanout ramp will operate within an area equipped with proper secondary containment and other protective measures. The transfer will remove sediments that could not be pumped out of the truck. It will occur by driving the truck up a ramp, opening the back of the truck and allowing gravity, in conjunction with hand held scrapers, to cause sediments to fall into the roll-off dumpster. A water rinse may be used to clean out additional residue. Once the roll-off dumpster reaches capacity, it will be shipped to a Safety Kleen Recycle Center for additional treatment. Spill containment will be provided during the transfer operations by permanent curbs around the roll-off dumpster. The ramp will be constructed with 6" concrete curbs on the sides and absorbent booms and will be placed around front and rear of the truck during transfer. The maximum amount of liquid level that will be allowed in the roll-off dumpster will not exceed 10%. If it is determined that the liquid is above 10% of the total volume, dewatering activities will be used to ensure compliance with this requirement (e.g. pumping the liquid, bailing, or adding floor dry).		
2003068405	Three-year Variance for the City of Ventura's Conditionally Exempt Small Quantity Generators (CESQG) Program - HHWVAR030501 Toxic Substances Control, Department of Ventura--Ventura Variance for the City of Ventura's participating CESQGs from hazardous waste manifesting and transportation requirements. The variance is limited to the acceptance of and transportation of up to 100 kg (220 lbs. or 27 gallons) of hazardous wastes by participating CESQG businesses. The collections provide appropriate and safe means of hazardous waste disposal.	<b>NOE</b>	
2003068406	Three-year Variance to Santa Cruz County to Conduct Residential Household Hazardous Waste (HHW) Collections - HHWVAR030502 Toxic Substances Control, Department of --Santa Cruz Variance to Santa Cruz County from hazardous waste facility permit requirements. The variance authorizes Santa Cruz County to conduct residential collections of household hazardous waste (HHW). The collections provide appropriate means for the elderly and handicapped, and others unable to participate in the regular HHW collection program of disposing of hazardous waste.	<b>NOE</b>	
2003068407	Three-year Variance to Ventura County to Collect Agricultural Used Oil from Qualified Agricultural Generators - HHWVAR030503 Toxic Substances Control, Department of --Ventura Issuance of an agricultural used oil collection variance. This variance authorizes Ventura County to conduct collections of used agricultural oil from qualified generators in the county. DTSC's authority to grant variances is provided in Health and Safety Code Section 25143.	<b>NOE</b>	
2003068408	Test Drilling for Auburn-Folsom Road Widening Project Parks and Recreation, Department of --Placer This project consists of five 4-inch diameter, 20-foot deep test borings for geo-technical purposes related to the Auburn Folsom Road Widening Project. The test borings are all located along the State Recreation Area boundary. The work will be completed with the use of a small track mounted radio controlled drill rig. The boring sites will be accessed from Auburn-Folsom Boulevard. The test holes will be back filled with bentonite-cement slurry. The project consists of minor	<b>NOE</b>

	renovation of the mansion and grounds, improvements to the adjacent parking lot at the Clares Street and Wharf Road library, and establishment of a habitat enhancement/ adaptive management program to preserve and protect adjacent and on-site biological resources.		
1999101001	Grand Central Recycling and Transfer Station (Amendment to Conditional Use Permit No. 99-2) Industry, City of Industry--Los Angeles Grand Central Recycling and Transfer Station proposes to amend the existing Conditional Use Permit No. 99-2, which currently allows a daily tonnage capacity maximum of 1,500 tons per day (TPD). The proposed project would amend the daily tonnage capacity to a maximum daily capacity of 5,000 TPD. It is proposed that the facility reach full capacity by 2007.	EIR	08/06/2003
2002052038	Calvine Pointe Elk Grove, City of Elk Grove--Sacramento The project consists of a zone change from AR-5 (Agricultural Residential) to GC (General Commercial), a General Plan Amendment from low density residential to commercial, and a lot merger. The project consists of 25.26 acres and will create approximately 255,683 square feet of commercial uses.	EIR	08/06/2003
2002052080	James C. Enochs High School Modesto City Schools Modesto--Stanislaus The project consists of a new high school on 62 acres in the City of Modesto. The new facility would include approximately 272, 422 square feet of buildings, 3.1 acres of athletic fields and a swimming pool.	EIR	08/06/2003
2002062017	Planned Development Rezoning (File No. PDC02-046) for a Mixed Use Project San Jose, City of San Jose--Santa Clara San Jose Water Land Company Planned Development Rezoning to allow up to 325 residential units and up to 1.04 million square feet of commercial/retail uses on approximately 7.76 net acres located on both sides of Delmas Avenue, between West Santa Clara Street and West San Fernando Street. The proposed project includes the preservation and reuse of an existing 15,000 square foot City Landmark building. The proposed buildings will be constructed over structured and below-grade parking. Building heights would range from up to 218 feet above grade at the northerly end of the site rising to 268 feet above grade at the southerly end of the site with height limitation setbacks from the San Jose Water Company City Landmark buildings and from riparian corridors of Los Gatos Creek and the Guadalupe River.	EIR	08/06/2003
2001112048	Expansion of Water Transit Service in the San Francisco Bay Area San Francisco Bay Area Water Transit Authority --Alameda, Contra Costa, Marin, Napa, San Francisco, ... This EIR addresses the San Francisco Water Transit Authority's Plan to improve and expand water transit service. This EIR analyzes the impact of four other project alternatives; including a No Project alternative. The alternatives represent a range in the scope of expansion of water transit service. The proposed project includes X new routes and X new terminals. Conceptual terminal, passenger service, and new vessel technology are discussed and evaluated.	FIN

The plan is designed to meet the requirements of the federal Clean Air Act (CAA) and contains measures needed to attain the NAAQS at the earliest possible date. The PM10 Plan will become part of the State Implementation Plan (SIP) for the San Joaquin Valley. The following requirements apply to areas designated serious nonattainment under the CAA. The third bullet requiring five percent percent per year reductions applies only to serious areas that have failed to achieve attainment by the deadlines specified in the CAA. The PM10 Plan contains all required elements.	<b>NOD</b>	
2003069054	Tanoak Timber Harvest Plan, #2-02-093-YUB-3 Fish & Game #2 --Yuba Rocked fords on two class II watercourses will be installed. Waterholes will be used.	<b>NOD</b>	
2003069055	Floodgate Creek Tributary Water Diversion Fish & Game #3 --Mendocino The Operator is proposing to continue to draft water from a tributary to Floodgate Creek for irrigation, frost protection, and heat control of grapes located approximately 6 miles northwest of Philo in Mendocino County.	<b>NOD</b>	
2003069056	Lake or Streambed Alteration Agreement Renewal for Notification #00-0297, Annual Installation of Temporary Summer Bridge on the South Fork Eel River, Humboldt Humboldt County Planning Department --Humboldt The California Department of Fish and Game is executing the renewal of a lake or streambed alteration agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant. The applicant proposes the annual installation of a temporary summer bridge on the South Fork Eel River, Humboldt County.	<b>NOD</b>

2003068419	Stream Crossing REpair-Greenwood River Access Area Fish & Game #2 --Placer Repair of a concrete wet ford.	<b>NOE</b>	
2003068420	Routine Maintenance Dredging of Marina Fish & Game #2 Oakley--Contra Costa Removal of 15,000 cubic yards of accumulated silt to previously approved depths and silt disposal at spoils pond.	<b>NOE</b>	
2003068421	Lanan Debris Basin Fish & Game #5 Sierra Madre--Los Angeles SAA# R5-2003-0054 Alter the streambed by removing the existing substandard outlet tower and abandoning approximately 700 feet of 24-inch outlet drain. The existing outlet tower has an inadequate foundation and an undersized outlet pipe. The invert of the outlet pipe is severely deteriorated and blocks up during the rainy season. The tower will be replaced with a new outlet tower. A new 42-inch outlet drain will be constructed adjacent to the spillway. Or towards the entrance road. The outlet will be connected to the existing drain downstream of the debris basin.	<b>NOE</b>	
2003068422	Little Dalton Debris Basin Fish & Game #5 Glendora--Los Angeles SAA # R5-2003-0068 Alter the streambed by seismically retrofitting the Dam to meet current Division of Dam Safety requirements. These activities include constructing buttresses against the inside surface of the spillway walls, and constructing external buttresses for the outlet tower. The project also includes construction of a span across the spillway for employee access.	<b>NOE</b>	
2003068423	Temescal Creek Tributary Geogrid-reinforced Engineered Fill Fish & Game #3 Oakland--Alameda The project is the bioengineered stabilization of 90-linear feet of bank of a tributary to Temescal Creek. The existing bank below an existing residence will be installed. The existing channel is approximately 25-feet wide and the project would result in potential excavation to the center of the channel, or impact an area approximately 12.5-feet wide. A total area of impact will amount to 1,125-square feet or 0.03 acres. Specific site work shall consist of the demolition of all existing sandbag walls, clearing, excavating, and installing a geogrid-reinforced engineered fill, permanent and temporary erosion control blankets and associated vegetation (blackberry shrub) planting. Issuance of a Streambed Alteration Agreement Number 1600-2003-0342-3 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>	
2003068424	Burns Valley Creek Bank Stabilization Fish & Game #3 Clearlake--Lake Project is to install riprap boulders along approximately 250 feet of stream bank on Burns Valley Creek, in order to halt bank degradation. Issuance of a Streambed Alteration Agreement Number R3-2002-0505 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>

## CEQA Daily Log

Documents Received during the Period: 06/16/2003 - 06/30/2003

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, June 24, 2003</u></b>			
2003068489	<p>Plumas 89 Highway Improvement Project Caltrans #2 --Plumas</p> <p>The Department of Transportation (Caltrans) is proposing a safety and operation highway improvement project on State Route 89 in Plumas County from 0.7 mile to 2.7 miles northwest of the Plumas / Sierra County line. The accident rate on this section of highway is higher than the statewide average for similar highways.</p>	NOE	
2003068490	<p>Shasta / Siskiyou Median Barrier Caltrans #2 --Shasta, Siskiyou</p> <p>Caltrans proposes to replace nonstandard median barrier and provide mammal crossings in the median at various locations in Shasta and Siskiyou Counties.</p>	NOE	
2003068491	<p>Los Banos Creek Security Gate Parks and Recreation, Department of --Merced</p> <p>Construct new security gate at Canyon Road entrance to San Luis Reservoir State Recreation Area and widen a (maximum) 160 foot section of roadway by 60 feet for a vehicle-with-trailer turnaround. Large boulders will maintain the perimeter to keep vehicles off vegetation. An island will be constructed inside the gate for a possible future kiosk. A solar panel will be added to power the electronic gate. The existing fences will be extended to meet the new gate. The project will improve public safety by restricting access to the Los Banos Creek Detention Dam after dark.</p>	NOE	
2003068492	<p>Hayloft Stabilization and Barn Door Replacement at South Yuba Barn Parks and Recreation, Department of --Nevada</p> <p>Replace hayloft decking and support structure with in-kind material in the South Yuba Barn at South Yuba River State Park. Install reproduction barn front doors to replace current chain link fencing. The project will protect historic resources and support continued use and maintenance of facilities.</p>	NOE	
2003068493	<p>Install Stream Gauge - Burney Creek Parks and Recreation, Department of --Shasta</p> <p>Install an automated stream gauge and a graduated staff gauge on the right bank of Burney Creek, approximately 2,000 feet downstream of Burney Falls in McArthur-Burney Falls Memorial State Park. The staff gauge will be bolted to a boulder in the stream. A small diameter pipe will be buried between the stream and the automatic recording box which will not be located on the rim of the historic ditch wall. The stream gauge box will be painted a color to blend in to the surrounding landscape. Project will monitor flow conditions to determine the effects of upstream groundwater extractions by agricultural, residential, and industrial developments.</p>	NOE	
2003068494	<p>Oak Hollow Woodland Restoration Parks and Recreation, Department of --Calaveras</p> <p>Remove 73 invasive coniferous trees (mostly ponderosa pine) and dense thicket of invasive conifers from a four-acre black oak woodland at the entrance to Oak Hollow Campground in Calaveras Big Trees State Park to restore healthy oak stands. A thin layer of chips will be spread over areas with no ground cover, and will be removed over the next few years and replaced by plugs of native grass.</p>	NOE

2003068495	Repair Front Porch / Steps and Construct Backyard Fence - Residence 37 Parks and Recreation, Department of --Calaveras Repair/replace front porch and steps of Residence 37 (22585 Parrots Ferry Road) at Columbia State Historic Park to protect and maintain the historic appearance, fabric, and integrity of the structure. Install a four-foot high wire mesh fence around the backyard of the structure to provide privacy and security for resident. All historic fabric will be repaired or replaced in kind. All ground disturbing activities will be monitored by a DPR-qualified cultural resource specialist.	<b>NOE</b>	
2003068496	Prescribed Fire Project at 80 Acres Parcel Parks and Recreation, Department of --Tuolumne Conduct prescribed burn for 11 acres of the 80-acre parcel on Italian Bar Road of Colombia State Historic Park in conjunction with approved 80 Acres Prescribed Fire Project Plan to control yellow star thistle and restore naive vegetation.	<b>NOE</b>	
2003068497	Leachfield Replacement - Madrone Campground Parks and Recreation, Department of --Humboldt Replace existing failed leachfield for combination building #3 at Madrone Campground in Richardson Grove State Park to protect public health, improve visitor services and ADA accessibility, and support continued use and maintenance of existing restroom and showers. Conduct percolation tests at all proposed locations, in compliance with Humboldt County Environmental Sewage Disposal regulations, then install trenches in up to three approved locations; install a distribution box to facilitate alternating field use. Construction will occur between September 15 - March 15, with any heavy equipment operation restricted to the hours of 10am to 4pm between February 1 and March 15. Ground disturbance will not occur during periods of overland flow, when soils are saturated, or if the chance of rain is greater than 30%. Disturbed areas will be mulched with native materials immediately following completion of earthwork and leachfield area revegetated with shallow-rooted native plants.	<b>NOE</b>	
2003068498	Columbia Docent Memorial Parks and Recreation, Department of --Tuolumne Install an engraved 34"W x 20"H x 15"D piece of rough cut limestone marbel with two 6" rebar anchor bolts in a garden setting at the northwest corner of Main and Washington Streets in Columbia State Historic Park. The engraved stone will be a memorial to Columbia docents who have "passed this way in life".	<b>NOE</b>

<b><u>Documents Received on Wednesday, June 25, 2003</u></b>			
2002064001	Lewiston Spawning Gravel Introduction Project: Interim Coarse Sediment Solution U.S. Bureau of Reclamation --Trinity The project will add approximately 2,000 tons of clean spawning gravel to the Trinity River in order to enhance the quality and quantity of spawning and rearing habitat. Project would spread a 1-2 foot layer of gravel on a 325 foot long by 89 foot wide section of the Trinity River bottom.	<b>EA</b>	07/30/2003
2002121078	Tessier Work/Live Project Ontario, City of Ontario--San Bernardino The Ontario Redevelopment Agency and Artco Partners propose the renovation of four properties located in the southwest district of Downtown Ontario. These properties would be fully restored and renovated into work/live rental units supporting a mix of uses including lofts, creative arts studios, galleries and commercial uses. The immediate development project site consists of four buildings that are mostly vacant.	<b>EIR</b>	08/08/2003
2003042070	Patterson Wastewater Master Plan and Diablo Grande Sewer Line Project Patterson, City of Patterson--Stanislaus Expansion of the City's wastewater facilities to serve approved and planned growth in the City and its sphere of influence. The project also includes accommodation of wastewater generated by Phase One of Diablo Grande, and construction of a sewer trunk line from Diablo Grande to the City.	<b>EIR</b>	08/08/2003
2003042162	Oakdale High School Expansion Project Oakdale Joint Union High School District Oakdale--Stanislaus The Oakdale Joint Unified High School expansion project is proposed to supplement the existing high school facilities in order to meet CDE standards and Federal Title IX requirements. The project includes purchasing neighboring offsite properties and building athletic fields and facilities to supplement the existing high school facilities. The proposed area of expansion consists of 33 parcels of land encompassing approximately 13.7 acres of land.	<b>EIR</b>	08/08/2003
2002094002	Final Supplemental Environmental Impact Statement, Airborne Laser Program U.S. Missile Defense Agency Lompoc, Lancaster--Kern, Santa Barbara Conduct test activities of the Airborne Laser System at test ranges associated with Kirtland AFB and White Sands Missile Range/Holman AFB, New Mexico, and Edwards AFB and Vandenberg AFB, California. Test activities would involve testing the laser components on the ground and in flight. Ground tests are proposed at Edwards AFB. Flight tests are proposed at the R-2508 airspace complex (Edwards AFB), Western Range (Vandenberg AFB), and White Sand Missile Range.	<b>FIN</b>	
2003061128	San Jacinto Street Retail Center San Jacinto, City of San Jacinto--Riverside Construction of retail store consisting of approximately 218,000 square feet, and a 12-position fueling station on a 20.8 acre area within the site. The fueling station will be located under a canopy cover and will include a kiosk totaling approximately 600 square feet. Approvals by the City of San Jacinto include conditional use permits for the gas pumps and drive-through lanes, and a variance	<b>NOP</b>	07/24/2003

	to increase the number and size of the project's signs. The remaining 4.63 acres of the site will be subdivided into four parcels consisting of free-standing retail pads. These parcels will be developed with a 3,800-square foot fast food restaurant with drive-through; a 4,200 square foot fast food restaurant with drive-through; a 9,000 square foot sit-down restaurant; and an 8,000 square foot retail shop building (consisting of a mixture of food, service, and/or retail uses), with a drive-through.		
2003061130	Carson Terminal Expansion Carson, City of Carson--Los Angeles Kinder Morgan Tank Storage Terminals LLC, a subsidiary of Kinder Morgan Energy Partners, L.P. (KMEP) is proposing to increase the storage capacity of their Carson Terminal, located adjacent to the southeast intersection of Alameda Street and Sepulveda Boulevard in the City of Carson, California. The project includes the installation of new tankage and supporting piping, pumps and ancillary equipment. The new tanks would meet the current demand for product storage and add capacity for future growth. Specifically, a total of 18 new 80,000-barrel product storage and one new 30,000 transmix storage tank with related piping, pumps and control systems would be constructed. Construction of the project would require filling a remnant of the old Dominguez Channel, which runs through the southwestern portion of the site.	<b>NOP</b>	07/24/2003
2003061134	Kelton Avenue Condominiums Los Angeles, City of Los Angeles, City of--Los Angeles A Vesting Tract Map to replace five, two-story apartment buildings containing 10-units (City's Historic-Cultural Monuments) with a 4-story building with 24 condominium units and 60 parking spaces. Twenty-one of the 24 units would be 2-bedroom and three-units would be 3-bedroom. On a 19,845 Sq. Ft. site in the R3-1-O Zone.	<b>NOP</b>	07/24/2003
2003061129	New K-6 Elementary School Panama-Buena Vista Union School District Bakersfield--Kern Construction of a new K-6 elementary school on an 11.97-acre site to include: 22 Classrooms, Administration, Library, Multi-purpose, Storage and Support Services. The project includes landscaping, paved grounds, turf and irrigation. Provision for on site parking for staff and visitors is planned along with hook-ups for future portable classrooms.	<b>Neg</b>	07/24/2003
2003061131	Morena Vista San Diego, City of San Diego--San Diego Morena Vista: Planned Development Permit, Tentative Map, Street Vacation, Street Dedication and Easement Vacation for the proposed development of a mixed-use, multi-family residential and commercial/ retail center on an approximately 6.5-acre site. Project construction would include approximately 355,704 square feet of multi-family residential and commercial/ retail uses within 3 multi-story buildings (including underground parking).	<b>Neg</b>	07/24/2003

<b><u>Documents Received on Wednesday, June 25, 2003</u></b>			
2003061132	Rainbow Farms Egg Laying Facility Expansion Merced County --Merced The proposed project is the construction of 10 layer barns. The unwashed eggs from the new barns would be transported by truck to an existing processing plant on the 640-acre project area for washing and packing. The new laying houses would be constructed with a 20.4-acre area located along the eastern boundary of the 326-acre portion of the project area. With implementation of the project, the bird population on site would decrease because of increased cage size per bird.	<b>Neg</b>	07/24/2003
2003061133	Northwood High School Aquatic Center Irvine Unified School District Irvine--Orange The project involves the development of an aquatic center on an existing high school campus. The facility would house a 50-meter pool, a removable one-meter springboard, 200-seat bleacher seating area and shower/ locker/ restroom facilities. The facility would be lit for nighttime use. A joint use agreement with the City of Irvine would allow public use of the facility.	<b>Neg</b>	07/24/2003
2003062141	Recycled Water Treatment Facility and Pipeline North Marin Water Districts Novato--Marin NMWD & NSD are proposing construction of a recycled water treatment facility (RWTF) adjacent to an effluent storage pond and a wildlife pond north of Highway 37. The RWTF would provide additional treatment of the secondary effluent to tertiary levels to meet California Department of Health Services (DHS). The treatment process includes coagulation, filtration, and disinfection. The RWTF would have an initial capacity of 500,000 gallons per day (0.5 mgd) of recycled wastewater that would be distributed via an eight-inch high-density polyethylene (HPDE) pipeline for landscape irrigation at the Stone Tree Golf Course.	<b>Neg</b>	07/24/2003
2003062142	Density Bonus Ordinance Revisions Fremont, City of Fremont--Alameda The City of Fremont adopted a revised Housing and Land Use Elements on May 13, 2003. Housing Element Implementation Program 12 and Land Use Policy LU 1.6, Implementation Program 1 call for updating from the City's Density Bonus Ordinance consistent with the recently amended State law. The proposed revisions to the Density Bonus Ordinance are proposed to maintain compliance with State law as well as to consolidate the City's Density Bonus provisions into one location for ease of use. The proposed Zoning Ordinance does not authorize any new construction, or development projects. Subsequent projects will undergo environmental review to determine if they pose any potential to impact to the environment.	<b>Neg</b>	07/24/2003
2000111037	Aviation Facilities Plan Santa Barbara, City of Goleta--Santa Barbara The proposed Aviation Facilities Plan identifies projects to meet the aviation needs at the Santa Barbara Airport through the year 2015 to accommodate additional passengers and aircraft operations. The projects would consist of the following elements: Airfield Safety Projects: Construction of a full 1,000 foot long by 500 foot wide runway safety area for each end of Runway 7/25 to meet current minimum FAA	<b>NOD</b>

2003068499	Rip-Rap Erosion Control/Drainage Improvement in Unnamed Ephemeral Drainage Fish & Game #5 Malibu--Los Angeles The Operator proposes to alter the streambed to fill in the natural drainage channel with compacted fill. Storm flows will pass through rip-rap and flow to a 24" pipe and will be retained and filtered through another rip-rap system before it is released to an adjoining stream. Adjacent upland slopes will be graded to reduce erosion potential and planted with native vegetation. The project will result in a permanent loss of 0.37 acre to disturbed highly incised ephemeral drainage vegetated with exotic species and sparse laurel sumac.	<b>NOE</b>	
2003068500	Dos Pueblos High School Storm Drain Repair/Replacement Fish and Game Santa Barbara Goleta--Santa Barbara Replacement of a 24-inch drain pipe and erosion repair with clean fill material.	<b>NOE</b>	
2003068501	Watt Senior Condo Development / PD-S-912/TT-5281 Fish and Game Santa Barbara Simi Valley--Ventura Installation of a 15-inch RCP storm drain outlet with headwall into the Arroyo Simi, from the condo complex.	<b>NOE</b>	
2003068502	Limited Access Permit for Suzanne Rodriguez / Annabelle Boggs Forestry and Fire Protection, Department of --Lake Two "landlocked" adjacent property owners will use existing dirt/gravel state forest roads to access their properties.	<b>NOE</b>	
2003068503	Shamel Park Parking Lot Rehabilitation Riverside, Planning Department, City of Riverside--Riverside The project consists of the rehabilitation of an existing paved parking lot, converting angled parking to perpendicular where possible, increasing the number of parking spaces from 107 to 122, providing lighting per City standards, and providing fully accessible and legally marked handicapped parking stalls per the requirements of the American Disabilities Act (ADA) and the Uniform building Code. The parking lot will be reconfigured for more efficient use of space; the amount of pavement will be slightly reduced from the current configuration.	<b>NOE</b>	
2003068504	Camp Hope San Diego, City of San Diego--San Diego This project involves erecting a temporary soft camp just south of Lake Sutherland on property owned by the City of San Diego Water Department. The camp will be operated by the City's Family Justice Center and is designated to provide an outdoor experience for children who are victims of violence and child abuse. The camp will consist of up to seven tents placed on wooden platforms set in a semi-circle around an activity ramada. A small area, less than 0.1 acre, will be mowed around the tents and along the along two walking trails. Fifteen campers and five adult supervisors will spend two nights and three days at the camp, involved in hiking, fishing, water sports, music lessons, arts and crafts, and group counseling sessions. Camp Hope will operate Monday through Friday during the summer months. At the end of the summer, the camp will be dismantled until the next season.	<b>NOE</b>

2001121107	<p>Park Boulevard Promenade San Diego, City of --San Diego Balboa Park Master Plan Amendment , Central Mesa Precise Plan Amendment, Zoological Society of San Diego (zoo) Lease Amendment, Minature Train Lease Amendment, Carousel Lease Amendment and site development permit (CPA/LA/SDP) to allow for the implementation of the Park Boulevard Promenade project. Plan amendments would provide for an underground parking structure along Park Boulevard, a belowground transportation center and new loading dock entrance to the Natural History Museum, make adjustments to the Local Historic Resources Boundary, reorient the Zoo's main entry, convert existing parking lots to a pedestrian promenade, allow for the expansion of zoological garden uses, include pedestrian and circulation improvements along Park Boulevard, provide pedestrian and landscape enhancements in the project area, provide north and south gateway elements on Park Boulevard, provide parking for War Memorial visitors, provide a greenbelt along the eastern edge of the existing Zoo Parking Lot, and relocate the Carousel and Miniature Train. The project also include revisions to the existing Zoo, Miniature Train and Carousel leaseholds, construction of a new parking lot for Zoo employees and storm water, sewer and water infrastructure improvements. The project is divided into three sections: 1) the San Diego zoological gardens expansion; 2) the San Diego Zoo employee parking lot: and 3) the Park Boulevard Promenade.</p>	EIR	08/11/2003
2003021114	<p>Draft Supplemental Environmental Impact Report (EIR) for Tentative Tract Map No. 30846 (Serenity Estates) Lake Elsinore, City of Lake Elsinore--Riverside Proposed 75.2 acre Tentative Tract Map No. 30846, residential subdivision of 232 lots (3 lots for channel easement; 5 lots for open space, wetland, and park uses). Average lot size is 6,411 square feet. The tract map is permitted by right per Liberty Specific Plan.</p>	EIR	08/11/2003
2003022140	<p>Claremont Corridor Seismic Improvement Project East Bay Municipal Utility District Orinda, Oakland, Berkeley--Alameda, Contra Costa EBMUD is pursuing development of a project to address seismic improvements for its existing Claremont Tunnel, which crosses the active Hayward fault. The Claremont Tunnel delivers up to 175 million gallons per day of treated water to EBMUD customers west of the Oakland/Berkeley Hills. In a large-magnitude earthquake on the Hayward fault, the Tunnel is expected to be severely damaged by fault offset and groundshaking. The purpose of the project is to ensure that sufficient water is available to customers served by the Claremont Tunnel following an earthquake. EBMUD is currently considering a number of alternatives to serve this purpose, including upgrading the existing Tunnel and reinforcing the Tunnel liner, constructing a bypass tunnel at the Hayward fault crossing, constructing a new tunnel, constructing a new pipeline, or constructing a combination of these elements.</p>	EIR	08/11/2003
2001032119	<p>Miramonte Reservoir Expansion Mountain View, City of Mountain View--Santa Clara The scope of this project includes the construction of a 2.3 million gallon reinforced concrete potable water reservoir behind an existing reservoir on the same site to meet existing and future water storage needs.</p>	FIN

2003069064	Arroyo de la Laguna Tributary Concrete V-Ditch Fish & Game #3 Pleasanton--Alameda The Operator proposes to realign a tributary to Arroyo de la Laguna located at 29 Castlewood Road, Pleasanton, Alameda County. A concrete V-ditch will be constructed at the base of a seep to collect runoff and convey it into the main channel. The concrete V-ditch will extend approximately 30 feet downstream to the proposed road crossing. A 26-foot long by 24-inch diameter culvert will be installed from the V-ditch to an outfall location on the north side of the road.	<b>NOD</b>	
2003069065	Tentative Tract 15982, Sunny Hills Estates Fullerton, City of Fullerton--Orange California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to section 1603 (SAA #5-206-00) of the Fish and Game Code to the project applicant, Brian Thienes of Thienes Engineering. The applicant proposes to alter the streambed to develop five single family residences. The 3.1-acre project site is located at the southeastern intersection of Euclid Road and Laguna Road in the City of Fullerton, Orange County. The parcel is bisected by a stream that will be filled and replaced with a closed conduit storm drain to connect existing storm drain improvements upstream and downstream of the site. According to the Riparian Vegetation Survey completed for the project, approximately 0.43 acres of vegetation including willows, mulefat, and a canyon live oak exists within the streambed onsite.	<b>NOD</b>	
2003069067	L14315; ER Log No. 79-09-93A-Watson Grading San Diego County --San Diego This project proposes to grade for a split-level single-family residence on a parcel previously subjected to an Environmental Review as part of TPM 15911, Log No. 79-09-93, as a Negative Declaration dated June 7, 1979, and will be 3,500 square feet, and the footprint for the barn will be 1700 square feet. The residence footprint will include a pool, and the barn will include a parking area. Grading proposed will consist of 6300 cubic yards of cut, balanced by 6300 cubic feet of fill. The maximum cut slope ration will be 1 1/2 to 1 at a maximum height of 10 feet; the maximum fill slope ration will be 2 to 1 with a maximum height of 16 feet. A 10-foot retaining wall is proposed. Blasting is expected for the building pad only.	<b>NOD</b>	
2003068508	Streambed Alteration Agreement Concerning Unnamed Tributary in Stevenson Canyon Fish & Game #5 San Diego--San Diego Alter the streambed to access and conduct maintenance on the City operated and maintained Balboa Avenue Trunk Sewer. The project involved the cleaning of 10,150 feet of 12-15-inch diameter verified clay pipe. All access, cleaning, and minor maintenance work was done by City staff and conducted/completed in August 2001.	<b>NOE</b>

2003062153	Tuolumne County Community Development Department Tuolumne County Community Development Dept. --Tuolumne Construction of a 4,000+/- square foot single-story structure to house a library and youth center for the community of Tuolumne on a 0.22+/- acre parcel. The project includes all necessary site work to develop the structure and provide handicapped parking spaces and landscaping.	<b>Neg</b>	07/28/2003
2003062154	Mercer Fraser Willow Creek Gravel Bar Mining Plan Humboldt County Planning Department --Humboldt A 15-year permit term renewal for a previously approved gravel mining and processing operation which has been permitted and operating since 1969. The project includes a Conditional Use Permit extension, Special Permit extension, Reclamation Plan review, and review of financial assurance cost estimates for a surface mining and processing operation involving the annual extraction of 40,000 cubic yards of sand and gravel from Trinity River gravel bars at the extraction site over a 15-year period. The method of surface rock removal involves skimming with loader, scraper, and excavator. Aggregate materials are temporarily stockpiled and loaded onto trucks or off-road haulers and then transported to the existing adjacent processing site or to off-site locations. Processing operations involve material crushing and/or hauling; on-site storage of materials; production of asphalt; and weighing and hauling by truck. Site improvements existing at the southern portion of the processing site include a hot mix asphalt plant, rock crusher, screen settling basin, gate, office, and scales. Under the previous permit, hours of operations were restricted daylight hours Monday through Saturday, generally 7:00 am to 6:00 pm.	<b>Neg</b>	07/28/2003
1999082041	Application of Memorial Medical Center/Bruce Russo to Amend P-D(73) for a six-story, Eight-Level Parking Structure and for a two-story Office Building Modesto, City of Modesto--Stanislaus Conditional Use Permit for a parking lot in the R-1 Zone (at the northeast corner of Alma and Audrey Avenues) to serve future medical offices at 1237 McHenry Avenue.	<b>NOD</b>	
1999082041	Application of Memorial Medical Center/Bruce Russo to Amend P-D(73) for a six-story, Eight-Level Parking Structure and for a two-story Office Building Modesto, City of Modesto--Stanislaus The project is a comprehensive update to the City's Capital Facilities Fees (CFF) program of development impact fees that are collected to pay for public facilities that are needed citywide as the City grows. The 2003 update would revise the fees to reflect changes since the last update, including: increased land values, increased Police Department staffing ratios, adequate funding of Streets and Parks facilities per an inflation index, and improved documentation of facilities. The updated fee study also identifies the existing deficiency in citywide public facilities at approximately \$185 million. Since the City cannot collect fees outside its Sphere of Influence, the program has been limited to mainly those areas of the City's General Plan that are inside Modesto's Sphere of Influence. As an example, the proposed update would raise the CCF for a single-family home3 from the current rate of \$6,676 to \$15,852 per dwelling unit.	<b>NOD</b>

	1,106 acres of the three existing project areas. In total, the Merged Project Area is comprised of approximately 1,404 acres. The adoption of the "Merged Project Area" is intended to eliminate economic and physical blight, fund infrastructure improvements and provide economic incentives to stimulate revitalization of the project area.		
2003022032	2002.0475 O'Shaughnessy Dam Discharge Modification Project San Francisco Planning Department --Tuolumne Installation of a prefabricated steel pipe trifurcation and construction of a 60-inch diameter steel pipe penstock near the left downstream groin of the dam.	<b>NOD</b>	
2003022088	Railroad Square Drainage Improvements Santa Rosa, Department of Public Works Santa Rosa--Sonoma The Railroad Square Drainage Improvement Project will replace the undersized storm drains in the area of West Sixth Street between Wilson and Madison Streets. Storm drains will also be installed on Jefferson Street, Madison Street and Pierson Street. The system will discharge into Santa Rosa Creek near Pierson Street. Drainage improvements at the intersection of West Sixth Street and NWPRR will be accomplished by a jack and bore method.	<b>NOD</b>	
2003069068	Marsh Creek Tributaries Outfall Pipe Installation Brentwood, City of Brentwood--Contra Costa Project is to install 36'-60' outfall pipes on Contra Contra County Flood Control and Water Conservation District properties. Project is located at the end of O'Hara Avenue, and south of Lone Tree Way, Township 1N, Range 2E, Section 2. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2003-0447-3 pursuant to Section 1603 of the Fish and Game Code to the project operator, Bruce Brennan / Meritage Homes.	<b>NOD</b>	
2003069069	Sulphur Springs Creek Tributary Outfall and Free-span Bridge Vallejo, City of Vallejo--Solano The project is the installation of an outfall and free-span bridge on a tributary to Sulphur Springs Creek, as part of the development of 70 residential units, located off Landmark Drive at the southern end of the Hiddenbrooke Residential Development, in the City of Vallejo, Solano County. In order to address storm drainage considerations, a detention basin will be constructed in an upland portion of the site. Storm drainage will be conveyed from the detention basin to an outfall located in a tributary to Sulphur Springs Creek via an 18-inch pipe. The outfall will consist of a 10 foot by 20 foot ungrouted rip rap spillway in the tributary stream. Loose rock rip rap will be used to construct the outfall. The dimensions of the spillway will be 20 feet long by 10 feet wide. A minor amount of blackberry, mugwort and non-native annual grasses and ruderal species may be removed from the banks to facilitate outfall construction. In addition to the outfall, a free-spanning bridge over the tributary will be installed to provide access to the lands to the south, with the exception of the removal of approximately seven (7) immature oak trees consisting of four (4) small saplings and three (3) other individuals less than eight (8) inches in diameter at breast height. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2003-0348-3 pursuant to Section 1603 of the Fish and Game Code to the project operator, MR. dave Egan, Triad Communities, L.P.	<b>NOD</b>

The proposed low pressure treatment facility will replace a less efficient treatment facility currently operating.	<b>NOE</b>	

## CEQA Daily Log

Documents Received during the Period: 06/16/2003 - 06/30/2003

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, June 30, 2003</u></b>			
2003068617	Retaining Wall Fish & Game #3 San Carlos--San Mateo The project includes backfill and revegetation behind a retaining wall that was constructed in December of 2002. The project also includes bank stabilization measures such as native plantings, erosion control and coir logs. SAA #1600-2003-0370-3	NOE	
2003068618	Suisun Creek Pierce's Disease Host Plant Removal and Revegetation Fish & Game #3 Napa--Napa The project goal is the eradication of invasive species, and revegetation with native species of a riparian corridor, 800 feet long, and varying from 50 to 75 feet in width, located approximately one half mile downstream of Lake Curry on Suisun Creek in Napa County.	NOE	
2003068619	Culvert Repair Fish & Game #3 --Sonoma Issuance of a Streambed Alteration Agreement Number 1600-2003-0443-3 pursuant to Fish and Game Code Section 1601. The proposed project will replace a culvert that has failed and repair damaged asphalt in the vicinity of the culvert. The replacement will require the disturbance of approximately 20-sq. ft. of bank along with the removal of a small amount of vegetation. The existing rock slope protection will be replaced on the inlet side of the new culvert and RSP will be placed at the outlet. All work will be conducted from the roadway and work will take place when the stream is dry.	NOE	
2003068620	Unnamed Tributary Retaining Walls Fish & Game #3 Oakland--Alameda The Operator proposes to complete rear yard improvements behind a recent addition to the house located on an unnamed tributary.	NOE	
2003068621	San Leandro Creek Tributary Outfall Repair Fish & Game #3 Moraga--Contra Costa As part of the repair of an existing outfall structure, the operator proposes to construct a concrete energy dissipater and install an open cell block matting along an unnamed tributary of the Moraga Country Club golf course, just below the 14th tee.	NOE	
2003068622	Maintenance Dredging at Valero Refinery Crude Dock Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Benicia--Solano Maintenance dredging of a maximum of 80,000 cubic yards of sediment per year ending June 30, 2008, to a project depth of -42 feet mean lower low water (MLLW), with a two-foot overdredge allowance, along the face of the crude dock, and 10 feet MLLW with a one-foot overdredge allowance in the tug moorage area behind the dock.	NOE
